Work experience

● Final Year Project: E-commerce Website Development

June 2025 Center Pilote Djerba

- Designed and developed an online sales platform using HTML, CSS, JavaScript, PHP, and MySQL
- Managed database and integrated payment functionalities
- Worked independently and delivered the project on time

● Project Restaurant

2024 Restaurant Website Tunisia

Restaurant Website – Frontend Development with HTML & CSS

- Developed and deployed a responsive restaurant website using HTML & CSS, ensuring a modern and attractive user interface.
- Implemented a clean and elegant layout showcasing the restaurant's menu, services, and contact information.
- Applied CSS animations and transitions to enhance user experience.
- Ensured full mobile responsiveness and cross-browser compatibility.
- Optimized images and code for fast loading speeds and improved SEO.

Work experience

● Project React

2025 Portfolio Website Tunisia

Portfolio Website – Frontend Development with React

- Designed and developed a modern and responsive portfolio website using React.js, leveraging Vite for optimal performance.
- Implemented React Router for seamless navigation between pages.
- Styled the UI using Styled Components / Tailwind CSS for a modular and reusable design.
- Integrated animations with Framer Motion to enhance user experience.
- Optimized performance with lazy loading and code splitting.

● Project E-Commerce

2024 Dynamic E-Commerce Website Tunisia

Dynamic E-Commerce Website – Full-Stack Development with HTML, CSS, JavaScript & PHP

Built a fully functional online store with PHP/MySQL (backend).

- Developed a secure authentication system with session management and JWT-based authorization.
- Created an admin dashboard for managing products and orders dynamically.
- Implemented Redux / Context API for efficient global state management.
- Connected the frontend to a RESTful API for real-time product management.
- Secured the backend against common vulnerabilities (SQL).
